Frost Damages Many Gardens. The frost of early Sunday morning s responsible for widespread damage to crops in the town of Killingly.
Acres of corn and potatoes have been cut down and many other crops have been badly damaged. On the Maindon farm, on the Green Hollow road, an acre of strawberry plants was blighted; on the Byron Wood farm, on the South Killingly road, a large field of potatoes was nipped. Tomato plants also suffered severely, many losing all they had set out.

The frost cut unusual pranks in

the latter course. **ALL BUT \$9,347** Collected by Tax Collector E. J. Darbie.

All but \$9,347.97, minus the errors and abatements, of the taxes due the town of Killingly on the rate bill of 1910 has been collected. The total amount received by Collected. The total amount received by Collector Eibert L. Darbie up to the first of the month is \$42,097.04. The May collections amounted to \$12,219.17, of which \$1,972.03 was on the rate bill of 1910, and the remainder on the rate bills of past years. The interest paid on these back years. The interest paid on these back taxes amounted to \$17.10.

CLASS OF 1900

Presents Beautiful Gift to High School -Valued Addition to Art Collection.

Through the generosity of the members of the class of 1910, a notable addition has been made to the collection of status at Killingly High school. Their gifts, which makes a fine memorial among the sculptural decorations in the assembly hall, are busts of Demosthenes and Sophocles, a shield and a remarkably fine reproduction of the Urania in the Louvre. This last statue is seven feet in height and cost \$100. It is representative of one of the muses of Greek mythology (the heavenly one), the muse of astronomy and celestial forces and the arbitress of fate, second only to Callope in the company of the muses. llope in the company of the muses. As in the original, the cast represents Urania holding a staff or compass for indicating the course of the stars. It is to be placed at the rear and on the laft side of the stage. The busts have been mounted at each side of the artistic clock face over the south side entrence to the hold and the shield entrance to the hall, and the shield over the entrance on the opposite side and between two other busts. Funds from entertainments were used in the

purchase of the gifts.
Since the opening of the new high school the art collection has grown to schoo! the art collection has grown to quite surprising proportions. That this fact is not generally known is indicated by the small number of the town people that have called to view it. A visit for this purpose alone would be amply repaid. All of the casts are of fine texture and have all the detail of the original. They are of the class that have found places in the Metropolitan Museum in New York, the Art Institute in Chicago and the Museum of Fine Arts in Boston. They are by the most celebrated makers of are by the most celebrated makers of plastic reproductions of ancient and odern sculpture in this country, and cannot but be an aid in developing the artistic temperament of the students
